

Professional Summary

Final-year B.Tech IT student at VIT Vellore with experience in full-stack, mobile, and AI/ML projects. Skilled in software development, APIs, databases, and problem-solving, with achievements including a hackathon win, published research, and patent filings.

Education

Vellore Institute of Technology

B.Tech in Information Technology — CGPA: 8.89/10

2023 – 2027

Vellore, Tamil Nadu

Shri Barfani Academy

Class XII (MPBSE) – 83.4%

2023

Indore, Madhya Pradesh

Sanmati Higher Secondary School

Class X (CBSE) – 90.6%

2021

Indore, Madhya Pradesh

Experience & Leadership

DLA Club, VIT Vellore

Design Head

2025

Vellore, Tamil Nadu

- Led a design team responsible for UI/UX, branding, event promotions, merchandise, and social media content.
- Coordinated with cross-functional stakeholders (event, tech, and content teams) to align timelines and deliverables, translating design requirements into actionable briefs for execution.

Projects

Academic Burnout Prediction System - Hackathon Winner

GitHub | Live Demo

Tech Stack: Node.js, Express.js, MongoDB, JavaScript, ML/AI API, Android Studio

- Built a full-stack AI/ML web and mobile application that predicts academic burnout in students, winning 1st place (Rs. 1,00,000 prize pool) at the Proctor-Proctee Hackathon, VIT 2026.
- Designed the end-to-end system architecture covering backend REST APIs, MongoDB data layer, AI model integration, and a companion Android mobile app within a strict hackathon time constraint.

ThermaFL - Thermal-Aware Federated Learning System

GitHub

Tech Stack: Java (Android), Python, Firebase Realtime Database, TensorFlow Lite, JavaScript, Chart.js

- Built an Android edge-node app with a background telemetry service streaming live battery temperature, battery level, and free RAM to Firebase Realtime Database every 5 seconds, and a Python control server that computes a composite alpha (α) throttle multiplier from those thresholds to dynamically pause/resume on-device federated learning training.
- Built a real-time web dashboard (JavaScript, Firebase, Chart.js) visualizing live telemetry, training status, and streaming loss/accuracy curves across connected edge devices with an event log.

Mental Health Support Chatbot - Depression Detection

GitHub

Tech Stack: Python, TensorFlow, HuggingFace Transformers (DistilBERT), Streamlit

- Fine-tuned a DistilBERT transformer model on a combined depression dataset (1,884 test samples), achieving 97.77% test accuracy with a 0.98 F1-score across both classes, via a full pipeline of tokenization, attention masking, and a softmax classification head.
- Built an interactive Streamlit chat UI with confidence-aware empathetic response logic, session state management, and an always-visible crisis resources sidebar.

Technical Skills

Languages: Java, JavaScript, Python

Backend: Node.js, Express.js, REST API Design, Firebase (Realtime Database), Android Studio (Java)

Databases: MongoDB, MySQL

Tools: Git, GitHub, Figma

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Agile/SDLC

Analytics: KNIME, Power BI, Excel, Google Sheets

AI/Agentic Tools: Claude Code, ChatGPT Codex, Google Antigravity, Prompt Engineering

Certifications

Oracle Certified Professional: Java SE 21 Developer - Oracle

View Credential

2026

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle

View Credential

2025

Publications & Patents

”No-Code and Low-Code: Democratizing Software Creation”

Research Paper

Accepted, Presented at ICISML 2026 (Awaiting DOI)

2026

Silent Logic Corruption Detection in Visual Workflow Applications

App. No. 202641027777

Indian Patent (Published) – Co-Inventor

Mar 2026

Dynamic Event-Driven Player Valuation System with Incremental Context-Aware Updating

App. No. 202641031013

Indian Patent (Published) – Co-Inventor

Mar 2026

Adaptive Quantum-Resistant VPN Using Network-Aware Cryptographic Optimization

App. No. 202641051570

Indian Patent (Published) – Co-Inventor

Apr 2026

Achievements

- 1st Place, Proctor-Proctee Hackathon, VIT 2026 (Rs. 1,00,000 prize pool) – built and pitched an end-to-end AI/ML system under time constraints.
- Awarded Medhavi Chatra Laptop Yojana Scholarship by the Madhya Pradesh Government (Rs. 25,000) for academic excellence.
